

Chester Woods Nordic Ski Trail Map

Chester Woods park is located approximately 7 miles east of Rochester on US 14. The park is on the right about 1 mile past Chester. Admission to the park costs \$5 / day or \$20 / year and park tickets can be purchased at the information booth at the entry to the park. The start of the ski trail is located near the boat ramp and crosses over a small tressel bridge before heading south into the park. The trail at Chester Woods is groomed for both skating and classical, however the trail is relatively narrow in many places, making it difficult for skaters to avoid crossing into the classical tracks. The trail is mainly in the woods, making it an ideal place to ski on cold windy days. Most of the trail is relatively flat with only 2 small climbs on the trail. Total trail length is approximately 8 km.

Elevation changes for the main 8.3 km loop at Chester Woods skiing counter clockwise - map on right shows trail loop corresponding to the elevation map.
